

Error saving project record

Wed, 03/03/2010 - 15:28 — llwright1

Hello, I just installed Organizer yesterday (Windows XP; Outlook 2007).I set up a couple of test projects, then deleted one. When I tried to delete the other, I received the message "Error saving project record", and it will not disappear from the list.Any ideas on how to get rid of it?BTW - So far this looks like it will really help me manage my tasks - I'm hoping to integrate it into my daily routine!Thanks,Lisa
