Hi this is a great add-in, however, I just upgraded to Outlook 2010 and unfortunately the addin does not load properly. I am getting the following error message when I visit the COM Add-Ins page in the "Outlook/Options/Add-Ins" section: <Load Behavior: Not Loaded. A runtime error occurred during the loading of the COM Add-in>Please update this great utility to work with Outlook 2010!Thanks, -JT
