# Is the Organizer compatible with Outlook 2010?

Thu, 09/30/2010 - 06:17 — Chris

There are several people using Organizer with Outlook 2010. We have not tested the add-in with that version. According to Microsoft, 2007 add-ins should work fine with 32 bit versions of Office. So if you're running Office 2010 32-bit, you are most likely fine.
