

Any plans for Outlook x64 support?

Fri, 01/07/2011 - 00:48 — Noelhx

I run Office 2010 X64, so if this is not an option in the near future, I need to know to continue my search elsewhere. When I develop my own addins, I simply change the target in VS2010 to Any CPU, and they install and work fine with Outlook x64. Noel
