

## Help - can't install "Specified cast is not valid"

Tue, 06/14/2011 - 08:28 — spenol  
Hi,

I've tried installing the demo version of Organiser, but after the Outlook Add-in installer opens, I get the error "Specified cast is not valid", followed by the following error. Any ideas? I'm running Outlook 2007 on Windows 7.

Thanks,

Oliver.
