Ceptara-Outlook & OneNote

Tue, 08/09/2011 - 09:02 — kellyjsanders
...trial user...

I mainly work out of OneNote and tag many items via GTD process. Would be great if Ceptara could pump and pull information as it does with Outlook. I could see initially working in Outlook to manage emails and tasks into Ceptara projects and then spend the Compile and Research phase in OneNote generating more tasks/emails ...but linked.

Any near term functionality like this coming out?

Thanks,

‹ Disconnected Outlook causes Ceptara to delete new tasks in Toodledo [1] Planning View within a Task does not appear › [2]
