Next Release

Tue, 12/13/2011 - 07:29 — jpolson

Is there a date set for the next release of Organizer? Is there a bug list or feature list of items that are being addressed in the next release? My Outlook 2010 crashes and I continue to get the message that ceptara organizer is the reason the crash. What is the best way to determine why I am continueing to get these crashes?

Thanks,

‹ How do emails get into project folders in My Organizer view? [1] When I click on the 'My Organizer' view, nothing happens. Right-click context menus do not appear. › [2]
