

Unable to re-install plug-in

Sun, 01/22/2012 - 18:49 — dustyp103

I had some Outlook issues and had to remove and reinstall MS Office 2010 32-bit on my Windows 7 64-bit Lenovo laptop. As part of the uninstall, I started by uninstalling Ceptara, the Outlook.

After re-installing Office 2010 and getting Outlook back to functioning, I today went to install the Ceptata Outlook add-in. When it runs I get a box asking how I want to Firefox to handle Organizer.vsto. Please advise.
