Ceptara for Outlook 2010 crashes on window 8 OS

Wed, 09/19/2012 - 11:01 — gavin.mcewen@fa...
I have installed the outlook add-in on a laptop running Office 2010 on Windows 8 (the RTM version). Ceptara crashes Outllook constantly. it is unusable, and the only solution that fixes it so far is to uninstall.

Any Ideas / help?
